Raising Curtains on Royal Retreat of Roman-Styled Neo-Classic Mansions

Step into a rare and regal world where luxury is redefined, and every nuance reflects the grandeur of an opulent legacy.

The Presidencia - Hyderabad's **first-of-its-kind neo-classical mansion community** at Shamirpet - is more than just a home; it's a **timeless statement** of sophistication, elegance, and charm. As the city's **first Neo-Classic Colony**, it brings to life an architectural vision that blends classical design with modern indulgence.

This is a **low-density gated community**, with **over 75% open land** and just 25% dedicated to construction - offering an expansive, serene environment few can rival.

Are you ready to make your next strategic move?
Join us at The Presidencia, where the **art of living well** is celebrated. **Embrace the regal lifestyle you deserve and make that royal statement.**

A Royal Welcome Awaits

Where Luxury Meets Majesty

A Strategic Connection to Nature

Farm to Table Living

At The Presidencia, we believe in nurturing not just a home, but a lifestyle.
A whopping 60% of the land is left open for every mansion, for designer outdoors and private house gardens inviting residents to live a proactive life. **A healthy connection to Mother Earth and private courtyard living** awaits you - where nature isn't just around you, but an integral part of your everyday.

Connect with nature, breathe fresh air, soak in sunshine, and interact with flora and foliage. Play like a champion in activity zones and stay fit. Each mansion comes with a **private courtyard**, where you can curate your own **customizable fruit orchard**, gather around a fireplace for bonfires, or elevate your lifestyle with optional features like a **jacuzzi or private swimming pool**. This connection to Nature promotes a healthier lifestyle and offers the joy of farm-to-table living.

Blend with the Five Elements

Our philosophy is rooted in the knowledge that the human body is made up of five elements - earth, water, fire, air, and space. By fostering these five elements in the layout, a close connection with Mother Earth is established in harmony with the wellbeing of residents.

Being in contact with soil barefoot allows the body to absorb Mecobalamin (Vitamin B12) directly from the earth - one of the most natural ways for the body to acquire this essential nutrient, aside from food. Unfortunately, high-rise living has distanced us from this vital connection with Mother Earth.

At The Presidencia, we bring that bond back. Mother Earth is ready to give all the nutrition and strength we need - it's now our call to receive it. Through outdoor activities, gardening, and direct contact with soil, your body and mind are naturally strengthened, enhancing overall well-being.

By embracing and nurturing the five great elements in its thoughtful design, The **Presidencia** helps you stay balanced, healthy, and resilient.

Unleash Your Spirit in the Outdoors!

Double-Decker Skyway

Redefining Connectivity

The double decker skyway is built on Karimnagar Highway. The proposed double-decker skyway from JBS to Shamirpet (Exit No. 7 on the ORR), stretching approximately 18.11 km. This places The Presidencia just minutes away from seamless citywide access. With all necessary approvals - including military clearances - this infrastructure project is set to be a game changer for North Hyderabad.

Designed with a two-level structure, the first deck will feature a wide, 6-lane expressway for vehicular traffic, while the second deck will accommodate the Hyderabad Metro Rail (HMRL), ensuring faster, greener commutes. This transformative development will significantly boost connectivity, making Shamirpet one of the best-connected hubs in Hyderabad.

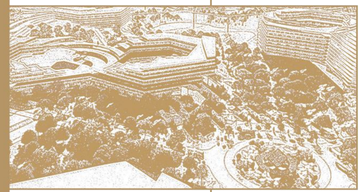

Genome Valley

The Global Innovation Zone

Located nearby, Genome Valley is Asia's largest—and the world's second largest—biotechnology park. Home to 850+ R&D centers of global pharmaceutical giants, this zone is a nucleus of innovation and scientific advancement.

Spanning a 10-km radius, the entire area is designated as a 'Free Environmental Zone', meaning no polluting industries are permitted—ensuring a clean, green, and future-ready ecosystem for sustainable living and growth.
